SUMMARY

Dynamic and enthusiastic professional seeking a challenging role where I can utilize my skills and expertise in software development, engineering, and project management. Eager to contribute to innovative projects, collaborate with diverse teams, and continuously grow in a dynamic work environment.

SKILLS

Languages: Python, Java, JavaScript, HTML, SCSS, PHP, C, C++

Technologies: Deep Learning, Machine Learning, Computer Vision, Web Development, Game Development

EDUCATION

2022 - Present	B.TECH in Computer Science with Specialization in Artificial Intelligence & Machine Learning CGPA: 8.52	Vellore Institute of Technology, Chennai
2023 - 2022	Sr. Secondary, CBSE(XII)	Delhi Public School, Navi Mumbai
2023 - 2020	Secondary, CBSE(X)	Delhi Public School, Navi Mumbai

PROJECTS

Deep Learning Computer Vision	Ocular Disease Intelligent Recognition - Project Lead - To assist medical professionals and institutions in the field of ophthalmology, detect ocular diseases with remarkable precision and accuracy. Tech Stack: <i>Tensorflow, OpenCV</i>
Deep Learning Computer Vision	Surgical Tool Segmentation - Applied U-Net for precise surgical tool segmentation in real-time video footage, enhancing surgical navigation and efficiency. Tech Stack: <i>PyTorch, Tensorflow, OpenCV</i>
Web Application	sMile - Winner of ACM (Association for Computing Machinery) WebDex 2024 Hackathon - Team Lead - A dynamic hub to connect local volunteers with community organizations, facilitating impactful engagement and collaboration. Tech Stack: <i>HTML, SCSS, JavaScript, PHP</i>
Game Application	Cloud's Rescue - Lead Art Director - Developed characters, environment designs, level designs, and animations. - An educational 2D mobile game designed to reinforce mathematical concepts through an engaging game experience. Tech Stack: <i>Unity, Blender, Photoshop</i>

WORK EXPERIENCE

2/2024 – Present	Undergraduate Researcher, Machine Learning University of Pretoria, South Africa - Team lead for Augmentation Team at collaboration with University of Pretoria's Data Science for Social Good Lab under Prof. Vukosi Marivate. - Worked on Text augmentation for multilingual NLP models (African languages) with 150,000+ users in the base repository.
5/2023 – 9/2023	Internship on Game Design Geons Logix Pvt. Ltd. Developed the game 'Cloud's Rescue'.

4/2024 – Present Promoted	Vice President • Organized events and leading initiatives to promote data science awareness and community engagement.	Data Science Club
7/2023 – Present Promoted	Editor Head • Editor Head of VIT, Chennai's official Newsletter- SCOPEBytes, under School of Computer Science and Engineering's Dean Sir. • Acted as the bridge between the Content and Design team, and the Dean Sir's Office.	SCOPEBytes Newsletter
2/2023 – Present	Data Scientist • Served as a technical member, actively contributing to project collaboration and technical support provision.	Google Developer Student Club
3/2024 – Present	Jr. Core Committee • Volunteered to conduct events with the aim of providing quality education for under-privileged students.	VITeach (Non-Profit Organization)

PUBLICATIONS

2024	Krishna, K.V Hitesh, Joshua S Raju, and Kanimozhi S. <i>"TamilHRNet: Three-stage segmentation network for Tamil handwritten document digitalization."</i> (2024) (in press)
2024	Riddhiman Raguraman, Joshua Sakthivel Raju, and Subbulakshimi P. <i>"Adaptive NPC in Serious Games Using Artificial Intelligence"</i> (2024) (in press)

ACHIEVEMENTS

22/3/2024	ACM WebDex 2024 Hackathon • Won the First Place in the ACM (Association for Computing Machinery) WebDex 2024 Hackathon • Team Lead	Winner
27/9/2023	Game-A-Thon Hackathon • Won the First Place in the Game-A-Thon organized by TechnoVIT'23 under the School of Computer Science and Engineering, VIT, Chennai. • Lead Artist	Winner
